Supplies:

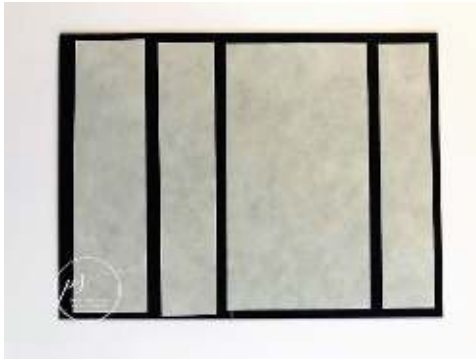

- **Aspen Tree Dies** – Perched in a Tree Bundle (159799), Dies (159798)
- **Cardstock** – Basic White (159276); Basic Black (121045); Highland Heather (146986); Granny Apple Green (146990); Gorgeous Grape (146987)
- **Misc.** – Glitter Washi Tape (159973); Multipurpose Liquid Glue (110755); Stampin' Cut & Emboss Machine (149653); Adhesive Sheets (152334)

Measurements:

- Basic White: 4 ¼" x 5 ½"
- Basic Black: 4" x 5 ¼"
- Gorgeous Grape: 5 ½" x 8 ½" scored at 4 ¼" (base card)
- Highland Heather & Granny Apple Green: scraps for aspen leaves

Instructions (with pictures below..)

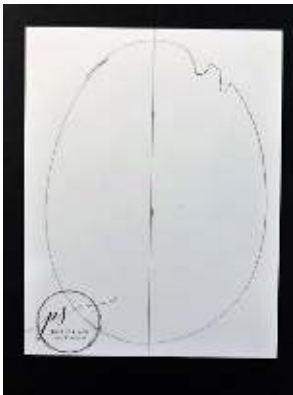

1. Fold the Gorgeous Grape cardstock in half to create your card base.
2. Apply adhesive sheets (several small rectangles) to the basic black (this is the back side). Leave space between your rectangles so it is easy to pull the 'wax paper backing' off. Place aspen die on the front side and run through the emboss machine. Save the trees.
3. Trace the outline of the trees die on the basic white. Measure the center and draw a line from top to bottom. This center line keeps the washi tape straight.
4. Starting at the center line, apply washi tape over the basic white cardstock to cover the outline of the trees die. I used three of the four colors of tape, no black. Trim this layer to fit under the black die cut trees.
5. Remove the wax paper from the adhesive sheets & layer the trees over the striped glitter tape. This will adhere the trees to the glitter. Adhere this piece to the Gorgeous Grape base card.
6. Cut out two small aspen leaves and add to the lower right corner of your card.

Adhesive sheets on back of basic black.

Tree die on the front ready to cut.

White cardstock w outline of die & center line for placement.

Washi tape covering the entire outline of the die. Trim this piece to fit under the aspen trees.
